### **Subject: Annual CTE / CCMR Report**

---

MISD Board of Trustees: February 18, 2025

Agenda Item – 7B

### **Background Information**

Career and Technical Education (CTE) remains a firm educational offer for grades 7-12 students on all secondary campuses. It offers students exposure, connection, and development within industries that match their interests. The state continues to modify and tweak aspects of CTE as it relates to coursework, statewide accountability, and relevance within local economies. This presentation offers insight into programming highlights with supplemental documentation about the size and participation within programs of study while presenting TEA changes impacting CTE.

This report also shows MISD's successes in preparing students for life after high school by highlighting a 95.9% CCMR rate as posted on the annual Texas Academic Performance Report (TAPR).

### **Fiscal implications**
