\$41,500 in Technology Integration Grant Funds Awarded to Region 12 Districts

Technology integration has a major impact on teachers and students, allotting funds for modern devices to enhance learning. The Education Service Center Region 12 Technology Foundation recently awarded six school districts with nearly \$41,500 in grant funds to support educational technology programs.

"It is a privilege to present grant awards to local school districts for the third consecutive year, which both advances and encourages the innovative use of technology in the classroom," Advisory Board Chair Kevin Houchin said. "The Technology Foundation is a great example of how ESC Region 12 promotes collaboration between educators and the community to produce outcomes that benefit students throughout central Texas."
