

2/24/23

Dear School Board and Administrators of LPSD,

After much consideration, I have decided to decline my contract with Lake and Peninsula School District for the 2023-2024 school year. I have enjoyed starting my career as an elementary teacher at Kokhanok School, and I will miss my coworkers and the community dearly. It will be bittersweet to finish this year, but it is the right time to begin my next chapter.

The past six years working for Lake and Pen have been the adventure of a lifetime. The relationships that have been formed within the community have shaped my overall experience and have made me feel at home. With all of the amazing opportunities provided, my greatest experience was teaching the students of Kokhanok. I am so proud of my students and all that they have accomplished. It will be a challenge to leave them behind, but I know they will be in great hands.

I would like to thank the Administration team, the Board, and the District staff for all of the support shown throughout the years and for providing me with many ways to grow as an educator. I have always appreciated your willingness to listen to staff and the opportunities created for professional growth. With the guidance of the wonderful staff of LPSD, I have greatly improved as an educator, for which I am forever grateful.

Sincerely,

Dana Wolff
