

Minidoka County School District ensures that instruction in passenger safety, including student participation in practical emergency evacuation drills, is an integral part of the school curriculum. Instruction should comply with state requirements and/or Federal Highway Safety Guideline 17 and with 45 CFR Part 1310, as may be applicable, and should include, but not be limited to, the following:

At least once each school semester, provide all passengers transported to and from schools in a school bus with instruction in the location and operation of all emergency exits. Also, provide supervised practical emergency exit drills to each student transported to or from schools in a school bus or school activity bus. EFFECTIVE July 1, 2018 SISBO / Student Transportation / SDE / 68.

1. Each bus route should have a written emergency evacuation plan. This plan should reflect each student's ability to evacuate or help others. Students with disabilities should participate in required evacuation drills and should only be excluded if their participation would present a health risk. Parents should be notified in advance of such barriers to their child's participation. Every effort should be made to ensure that ALL students have a reasonable understanding of the concept of an emergency and how they will exit the bus.
2. The driver and the attendant must be familiar with any equipment in the bus that would aid in an actual evacuation, (e.g., the use of all emergency exits, emergency/fire blankets, webbing cutters, etc.). It is important to enlist the help of school liaisons, parents and other personnel (e.g., physical therapists) to train and help students and staff understand emergency procedures including how to exit the bus safely without the use of their mobility devices and equipment (wheelchair, etc.). Local emergency personnel should be involved in developing the plans, especially if the students transported have complex medical conditions.
3. Before departure on each activity trip, provide all passengers transported in a school bus, instruction on the location of all emergency exits and demonstrations of their operation. Instruction should include a general review of safe riding practices, rules and procedures.
4. Limit the amount of carry-on items, especially large items such as luggage, coolers, sports/band equipment, etc., in school buses. Aisles and emergency exits in school buses must be kept clear at all times. Any item that is brought on board must be safely stowed and secured away from any aisle or emergency exit. School districts shall develop policy identifying other perceived unsafe items prohibited from being transported in the passenger compartment of a school bus, such as skis, skateboards, large instruments, etc.

The Superintendent shall ensure all students receive instruction in passenger safety and safety when walking to and from school, as part of the school curriculum. This instruction shall include student participation in practical emergency evacuation drills. For students who routinely walk to school, instruction should include the importance of adhering to their preselected route. This

instruction shall meet the requirements set out in state and federal law and administrative rules, including the following:

1. At least once during each school semester, each pupil transported from home to school in a school bus should be instructed in safe riding practices, proper loading and unloading techniques, and proper street crossing to and from school bus stops;
2. At least once during each school semester, each pupil transported from home to school in a school bus should be instructed in the location and operation of all emergency exits;
3. Prior to each departure, each pupil transported on an activity or field trip in a school bus or school-chartered bus should be instructed in:
 - A. Safe riding practices, rules, and procedures; and
 - B. The location and operation of emergency exits.

School Bus Emergency Plan

The Superintendent or their designee shall develop an emergency procedure to be followed in the event of an accident or other emergency. The District shall seek participation of local emergency personnel in developing the plan.

~~In the event of~~When such an accident or other emergency occurs, the bus driver shall follow this procedurethe emergency procedures developed by the Superintendent. A copy of the emergency procedures shall be located in each bus. To ensure the success of such emergency procedures, each bus driver shall conduct an emergency evacuation drill within the first six weeks of each school semester. The District shall conduct such other drills and procedures as may be necessary.

Evacuation of Bus

Each bus route shall have a written emergency evacuation plan. Each plan should reflect each student's ability to evacuate and assist others.

All bus drivers and school bus attendants shall be familiar with any equipment in the bus that would aid in an actual evacuation, which may include such equipment as the emergency exits, emergency or fire blankets, and webbing cutters.

At least once during each school semester, students should participate in supervised and timed emergency evacuation drills.

The District will make every reasonable effort to ensure all students have a reasonable understanding of the concept of an emergency and how they will exit the bus. Students with disabilities shall participate in required evacuation drills unless their participation would present a health risk. If a child's participation would present a health risk, the Superintendent or their

designee shall inform the student's parent/guardian of the barriers to participation. The District shall seek the help of school liaisons, parents/guardians, and other District personnel in training students and staff on the emergency plan, including how to exit the bus without the use of any mobility device or equipment that would be unavailable in the event of an emergency evacuation.

To allow evacuation in the event of an emergency, items belonging to those riding the bus must be safely stowed and secured away from any aisle or emergency exit. To ensure that aisles and emergency exits are kept clear at all times, the following items are prohibited in the passenger compartment of any bus used for regular or extracurricular transportation:

1. Sports equipment, large musical instruments, luggage, coolers, or any other items too large to fit on the student's lap;
2. Items with wheels or that are at risk of rolling on the floor of the bus that are not secured in the student's bag or pocket;
3. Any item prohibited on school grounds by District policy or applicable rules.

Students shall not bring any object onto the bus that does not meet these requirements. Also, students shall not bring any hazardous materials or objects or animals onto the bus, except that service animals are permitted in accordance with Policy 2375 Service Animals in School.

†The Superintendent may issue additional rules limiting the size or number of items riders may bring with them on the bus. Any item in the passenger area of any bus shall be stowed safely and securely in a manner that does not block the aisle or any emergency exit.
