### Encourage Successful Time Management for Your Child

Often what stands between goal completion and the starting point are time management issues. Throw a pandemic in the mix and virtually schooling your child, and things have moved to top-level chaos. There's hope in the form of a reliable and reasonable schedule. Learn how to manage precious time and help children get from point A to B with ease.

#### Schedule in Time for Health and Wellness

- Add snack time and lunchtime, not just for the children but for yourself as well.
- Schedule in breaks and use a timer to keep on track. Use the time for mental breaks and other mindful activities.
- Schedule "me time." Free time allows each family member to invest in their passion, experience enjoyment, or relax.

#### Be Realistic

- Start and end your day with realistic goals for the period.
- Some schools are providing classes at specified times, so start with them and fill in the spaces.
- Add all activities to the calendar.
- Maintain boundaries and don't give up personal time for unwinding.

#### Manage Time with Calendars

- Use online calendars like Google's to help the entire family connect.
- Use a whiteboard and add space for a monthly, weekly, and daily schedule.
- An old-fashioned calendar can track upcoming assignments, projects, and events.

#### Use Alarms

- Calendars provide notifications alerting you of upcoming events.
- Make sure alarms are not on mute or loud enough.
- Use specific sounds for specific events.
