DISTRICT VULNERABILITY ASSESSMENT
FULL REPORT

The top priority of Channelview Independent School District and the State of Texas is keeping students and staff safe every day.

The Texas Education Agency (TEA) Office of School Safety and Security recently conducted the mandatory 4-year District Vulnerability Assessment (DVA) for Channelview ISD. The assessment included an evaluation of the district and was based on state safety requirements.

The purpose of the assessment is to help districts identify strengths and areas for growth in order to improve safety and security practices and ensure a safe learning environment for students and staff.

The report identifies three types of findings:

- Best Practices – Areas where the district is meeting or exceeding expectations
- Suggested Improvements – Opportunities to strengthen current practices
- Required Corrective Actions – Items that must be addressed to meet state compliance

We recognize that safety is an ongoing process, and we truly appreciate the Board's continued support. We also want to thank our School Resource Officers, nurses, campus leaders, maintenance staff, cafeteria staff, counselors, and technology team for their teamwork and dedication in supporting this work across our district.

Detailed findings will be discussed in executive session and with the School Safety & Security Committee. Channelview ISD is committed to providing a safe and secure learning environment for our students and staff.

DISTRICTWIDE INTRUDER DETECTION AUDIT

The top priority of Channelview Independent School District and the State of Texas is keeping students and staff safe every day.

The Texas Education Agency recently conducted an Intruder Detection Audit at one of our campuses. This audit helps districts identify how campuses can improve safety for students.
