The Village of Oak Park and District 97 are seeking approval to amend the Intergovernmental Agreement (IGA) we have in place regarding the fiber project. The agreement currently states that the cost associated with the work the district's eRate consultant is performing in conjunction with the project will be split 50-50 between our two entities; and that each entity will pay the consultant directly. While the amount both organizations will pay does not need to be amended, what does need to change is the manner in which we pay it.

We are proposing that the district pay the full amount for the District 97's eRate consultant's work, and get reimbursed by the village for its portion. By doing this, we can keep the project on time and on budget. If we decide to keep the agreement as is, the village will need to enter into a separate contract with the consultant, which, given the deadlines associated with both the work and the ability to take advantage of the eRate, could delay the project by a year and lead to increased costs.

The Village of Oak Park approved [this amendment](#) on Monday, December 11, 2017 at its board meeting.
