Re: Cost Reasonableness Evaluation

Greetings Sir,

During the Alpena County Regional Airport Rehabilitation of Runway 1/19 project the intersection underlying pavement catastrophically failed. This necessitated the removal of the old pavement and replacement to grade with additional asphalt.

A quote for this additional work has been reviewed with our engineering firm, RS&H, and we compared them against our engineers' cost estimations based on recent and similar projects. It is our opinion that these costs appear reasonable when all the data has been reviewed and find the cost to be comparable to other projects of similar scope.

It is our recommendation that the FAA accept this letter as evidence that we have completed our cost reasonableness evaluation and found the costs associated with the project are reasonable. Should you require any additional information please do not hesitate to contact me.

Thank you,

Steven P. Smigelski
Airport Manager
Alpena County Regional Airport
