

Positive Happenings

Youth Development & Enrichment

District Staff Partner with Community Education

Community Education is fortunate to have the support of FLAS staff for Community Education programs. Whether they are teaching classes and activities, helping to spread the word about upcoming events or sharing spaces and equipment, we appreciate their partnership and support as we work to provide excellent opportunities for community members.

Here are just a few of the district staff who partnered with Youth Development & Enrichment Programs during the 2017-2018 school year:

Jake Matheson and Kyle Pagel served as co-directors of the Forest Lake Ranger Marching Band during the summer of 2017. This was a great opportunity to keep students involved in music during the summer months as well as increase the visibility of FLAS at local parades. We're thrilled to have Jake back to direct again this summer! Jake also taught band lessons along with Crystal Biljan who taught piano lessons throughout the year. These lessons provided students a way to improve their skills in a one-on-one setting with their instructor.

Eleven district staff served as Track & Field coaches for 4-6th graders this spring. Due to the wonderful relationships with the students at their schools, those coaches were able to promote the opportunity, encourage students to participate and maybe try something new. Many of the staff have coached for a number of years. Their knowledge and experience helped to ensure that practices and the track meet ran very smoothly. *This spring's track coaches include:*

Jennifer Larson - Lino
Bridget Sherwood - FLE
Arinn DiSalvo - Linw

Sara Stratton - FLE
Alicia Martineau - HS
Erik Overson - Col

Emily Stegmeir - Scan
Kyle Fletcher - Col
Dominick Mancini - Scan

Elementary Youth Development & Enrichment would also like to extend our appreciation to all staff who helped to spread the word about the new Archery - Intro class and the Youth Service Club. The success of those two new programs was due in part to district staff who helped promote the activities to interested students!
