CrisisGo Safety Reunification Manager (SRM)

CrisisGo Safety Reunification Manager (SRM) is a standalone service, working in conjunction with customer existing emergency notification system (s) like paging system or mass notification systems.

CrisisGo SRM main benefits:

- provides capabilities to school to get real time update of student and teacher safety status;
- facilitate the process to reunify students with parents;
- provide transparent situational awareness to first responders to rescue students and teachers in dangers;
- connect safety team, teachers, first responders, parents with managed 2 way emergency communication.

CrisisGo SRM main features:

- Real time student and staff safety status management (Roster event, checkIn)
- Digital reunification management - Fully aligned with I Love You Guys Foundation Standard Reunification Methodology
- Community connection for transparent situational awareness of student and staff safety status to first responders
- Two-way emergency communication channel to connect every stakeholder
- Ability to auto synchronization with all major SIS systems (license required)
- Ability to auto synchronization with LDAP to manage staff information (license required)
- Ability to Single Sign On (license required)
- Web based safety client and safety command center without mandatory app downloading for parents
- Mobile and desktop apps available

2,800 x ~~\$0.50~~/year
after 50% discount
\$700.00 / year
for 3 years

Student Roster Sync - SIS Sync (others)

Per database per year

Shipping cost	1 x \$603.00
<p>pricing varies based upon volume/weight.</p>	

ECHO Badge

500 x \$75.00

ECHO Badge is a next-generation safety wearable designed to elevate staff protection and emergency response without the complexity or cost of traditional systems. Built on the Moko LW006 platform and powered by CrisisGo firmware, it combines LoRaWAN communication, 2-way alerting, and precise location tracking using existing BLE or WiFi networks—with GPS as a fallback.

Unlike limited-functionality buttons, ECHO Badge not only sends alerts but also receives real-time updates, ensuring staff remain informed throughout any incident. Its versatility supports role-based configurations, including badge, button, or watch, offering tailored safety for every staff member.

Staff notifications are delivered across classroom screens, strobe lights, SMS, email, PA systems, and more. During high-stakes moments, staff can connect instantly with first responders, send confirmation messages, and enable visual reunification and controlled release for daily dismissals or emergencies.

The device enables interactive map integration, real-time accountability for individuals, and situational awareness dashboards—without the burden of installing complex proprietary infrastructure.

With a low profile, IP66 waterproof rating, and three-month rechargeable cycle, ECHO Badge ensures reliability and comfort. Deployment is simple, fast, and cost-effective—backed by a platform trusted across diverse environments like schools, hotels, and corporate campuses.

ECHO Badge offers exceptional safety performance without trade-offs—bringing smart, scalable protection within everyone's reach.

ECHO Ethernet Gateway Active PoE splitter

11 x \$25.00
