Re: MOU with the Coppell ISD Education Foundation

Attached is a proposed memorandum of understanding (MOU) with the Coppell ISD Education Foundation. The format was adjusted last year to better reflect and clarify the support that the district is providing in relation to the public purpose of the MOU, adequate benefits from the relationship with the CEF and that controls are in place. These three requirements are best practice for agreements with outside organizations when the district is providing support.

RECOMMENDATION: That the Coppell ISD Board of Trustees approve the Memorandum of Understanding with the Coppell ISD Education Foundation as presented.
