Edell

5. (a.) After graduation from high school, what do you plan to do?

After graduation I plan to pursue a master's degree in computer engineering at UTSA. It is my goal to not only receive an education in computer engineering, but as an extension, push myself to my fullest potential as a creator and secure my position as a hard working american citizen. While at the university I plan to complete a 4 year undergraduate degree, then continue an additional two years to earn a master's degree in computer engineering. Utilizing behaviors learned and practiced in college it is my greatest wish to accomplish great feats in the world of engineering and innovation at large.
