

## FHS Board Report 2/9/2026

### Kindness Retreat

A couple of weeks ago FIS held their 4th grade Kindness Retreat. Our MHS students served as Group leaders. I have had three of the fourth grade teachers seek me out to tell me what great leaders these students were. I just want to give a shout out to those students.

### Registration

It's only Feb. but we are in the process of meeting with 8th-11th grade students about registration for next year. We will have students register a little later this month. This will help us set staffing levels and know which courses we will need to offer.

### Online School

We have a group of staff that have been meeting to look at being able to offer some online school options for our students. We plan to use the Edgenuity program that we currently use for some ALC classes and credit recovery options. On Feb. 17th all FHS teachers will be looking at the program and specifically the courses they teach to look at rigor and alignment.

We chose Edgenuity because the courses are aligned to MN State Standards, plus the fact we have some staff that are trained in the program already. Offering online options will require some staff time to work with students, families and award the credits.

We are hoping by starting this option we may get some students back to us that have left for online school elsewhere this school year. It will allow us to monitor student progress and work with families if online is not working for that student.
