

# Property Tax Process

- Every owner of taxable property pays property taxes for the various “taxing jurisdictions” (county, city or township, school district, special districts) in which the property is located.
- Each taxing jurisdiction sets its own tax levy, often based on limits in state law.
- County sends out bills, collects taxes from property owners, and distributes funds back to other taxing jurisdictions.
- Each school district may levy taxes in up to 30 different categories.
- “Levy limits” (maximum levy amounts) for each category are set either by: State law, or Voter approval.
- Minnesota Department of Education (MDE) calculates detailed levy limits for each district.

## Minnesota School District Property Taxes - Key Steps in the Process

**Step 1.** The **City or County Assessor** determines the estimated market value for each parcel of property in the county.

**Step 2.** The **Legislature** sets the formulas for tax capacity. (E.g., for homestead residential property, tax capacity = 1% of first \$500,000 in value + 1.25% of value over \$500,000.) These formulas determine how much of the tax burden will fall on different types of property.

**Step 3.** The **County Auditor** calculates the tax capacity for each parcel of property in the county (based on values from step 1 and tax capacity formulas from step 2), as well as the total tax capacity for each school district.

**Step 7.** The **County Auditor** divides the final levy (determined by the school board in step 6) by the district's total tax capacity (determined in step 3) to determine the tax rate needed to raise the proper levy amount. The auditor multiplies this tax rate times each property's tax capacity, to determine the school tax for that property.\*

**Step 4.** The **Legislature** sets the formulas which determine school district levy limits. These are the maximum amounts of taxes that school districts can levy in every category.

**Step 5.** The **Minnesota Department of Education** calculates detailed levy limits for each school district, based on the formulas approved by the Legislature in step 4. These limits tell districts the exact amounts that can be levied in every category.

**Step 6.** The **School Board** adopts a proposed levy in September, based on the limits set in step 5. After a public hearing, the board adopts a final levy in December. Final levy cannot be more than the preliminary levy, except for amounts approved by voters.

\* For certain levy categories (referendum, equity and transition levies), tax rates and levy amounts are based on **referendum market value**, rather than **tax capacity**.
