SUBJECT: Driver Education Car Purchased by CTE

Board of Education- There was a vehicle that Superintendent Stephens used to drive that was a drivers ed vehicle that has not been used for some time. It was just going to be sent to auction for surplus. However, CTE could use this vehicle in their fleet and get a good vehicle for a good deal. The Drivers Ed Grant requires that we try and sell the vehicle for market value. It was determined that CTE could get this vehicle for \$13,250. We feel this is a good use of resources for the CTE department and satisfies the requirements of the drivers ed grant.
