

School Board Workshop:

March 10, 2025

Subject:

Secondary Math Curriculum
Adoption • Addendum Report

Presenters:

**Pam Miller, Director
Teaching & Learning
Kaia Grant, Secondary
Curriculum Coordinator**

SUGGESTED SCHOOL BOARD ACTION:

Report only. No recommended action at this time. Action will be taken at the next school board meeting.

DESCRIPTION:

The current curriculum adoption process in K-12 math programming for BHM Schools is taking place over a multi-year period of time due to the updates in state academic standards in math and the timing of course implementations. This year, the focus of the addendum is PreCalculus and Calculus.

The Precalculus and Calculus teachers have engaged in the district Continuous Improvement Process (CIP) review tasks over the past two years in the RESEARCH and PILOT phases. They have been active in activities that have included:

- review of state standards
- discussions of preferred resources and development of resource scenarios
- consensus-building to reach recommendation decisions

These tasks have now culminated into the Curriculum Adoption Addendum for review at this time.

Preliminary budget figures are listed below.

<u>Program</u>	<u>Budget Request</u>
PreCalculus	\$6,547.52
Calculus	\$19,527.48
Total	\$26,075.00
