Re: Summer School 2025
Date: July 17, 2025

2025 Summary

Elementary

At the K-5 level, we did not offer a summer school program for 2025. This was due primarily to lack of available space and the significant shifting of staff as a result of reorganization. The district did set aside funds to provide summer tutoring for students who otherwise would have been required to attend summer school. However, participation in this program was voluntary. K-5 did have some students who were retained either through automatic qualification or family request.

Junior High

In total, the junior high had 63 students not automatically promoted. 63 students attended summer school. Of these 63 students, 4 will attend RISE next year but will not be retained. Two of the four were placed at RISE prior to the end of the school year. Zero students did not attend summer school and will be retained next year.
