EE Initiatives for this school year-

Solar-? Look into and see? The team is interested in pursuing it. Contact the power company and see if that is something that is possible. Then if ok we will contact the lakes foundation. Then see about the next steps.

MN Phenology- We are having a hard time connecting with the MN Phenology network, maybe let nature's notebook go and do our own thing. We will look for a local naturalist. Lisa s. will contact a naturalist. Lisa L talked to Bud about making signs for our school forest to help students identify plants.

What could have gone better last year- We communicate with parents about trash pickup. Beth needs to know too.

School Forest-

Melanie will create a google sheet about who is using and doing what for DNR report.

Solarium-

Melanie will create a signup sheet for classes to come in and water.

Lisa S. suggested that we use shelving for classes. Melanie will clean them off and them available for use by 9/25/23.

Create a sign up sheet for solarium use for teachers.

Grow Lights- If the plants continue to grow

Recycling-

Get more commingled recycling bins for the end of the hallways- We need 3. Add Pictures on bins.
