~~Drug and Alcohol Testing~~ Testing and Training for School Bus Drivers

The Granby Public School district is committed to the establishment of a drug use and alcohol misuse prevention program that meets all applicable requirements of the Omnibus Transportation Employee Testing Act of 1991 (OTETA) and C.G.S.14-276a and any other applicable state statutes pertaining to pre-employment and random drug testing of school bus drivers. The District expects all subcontractors shall adhere to federal and state law and regulations requiring a school bus driver's drug and alcohol testing program.

This policy applies to all drivers and applicants for driver positions for the District's subcontractors who must have a Commercial Drivers License (CDL) to operate school vehicles.

In addition to the above-cited federal requirements, the Board of Education expects its school transportation carrier, by June 30, 2019, to provide training to all school bus drivers, including instruction on (1) identifying the signs and symptoms of anaphylaxis; (2) administering epinephrine by cartridge injector ("EpiPen"); (3) notifying emergency personnel; and, (4) reporting an incident involving a student's life-threatening allergic reaction.

Beginning July 1, 2019, each carrier must provide the training to school bus drivers following the issuance or renewal of a public passenger endorsement to operate a school bus for carrier employees, and upon the hiring of a school bus driver who is not employed by such carrier (e.g., subcontractor), except a driver who received the training after the most recent issuance or renewal of his or her endorsement is not required to repeat it.
