Re: TIENET Update

This summer the District switched over our computerized IEP system from eSped to TIENET. Powerschool recently purchased TIENET as a result of our IEP system now being comparable with Powerschool.

Our final student data from the eSped system has been imported to TIENET; this was compiled on September 7th. A representative from TIENET provided a three hour training to staff on August 31st and September 1st. Eboney Lofton, the Director of Special Education will be offering additional training and support to staff thru the month of September. We will also continue to offer on-going staff training throughout the school year via TIENET webinars.
