

ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: November 14, 2022

AGENDA ITEM: Aledo High School Auditorium Air Conditioning Rooftop Units

PRESENTER: Chris Campbell, Chief Facilities and Construction Officer

BACKGROUND INFORMATION:

- Per Board Policy CH (Local), any single, budgeted purchase of goods or services that costs \$50,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place.
- Two rooftop air conditioning units that serve the Aledo High School Auditorium are no longer functioning. The expected life of these units is 15-20 years. These units are 21 years of age. New units will operate consistently and will be more energy efficient. The new units will also utilize bipolar ionization, this improves indoor air quality. This project also includes installation of digital controls for the new units. Controls help with the management of energy usage and cost.
- The administration plans to recommend the approval of the purchase of these two units to the Board in December. This will allow ordering equipment and materials in time for a June-July installation in Summer of 2023.

FISCAL INFORMATION:

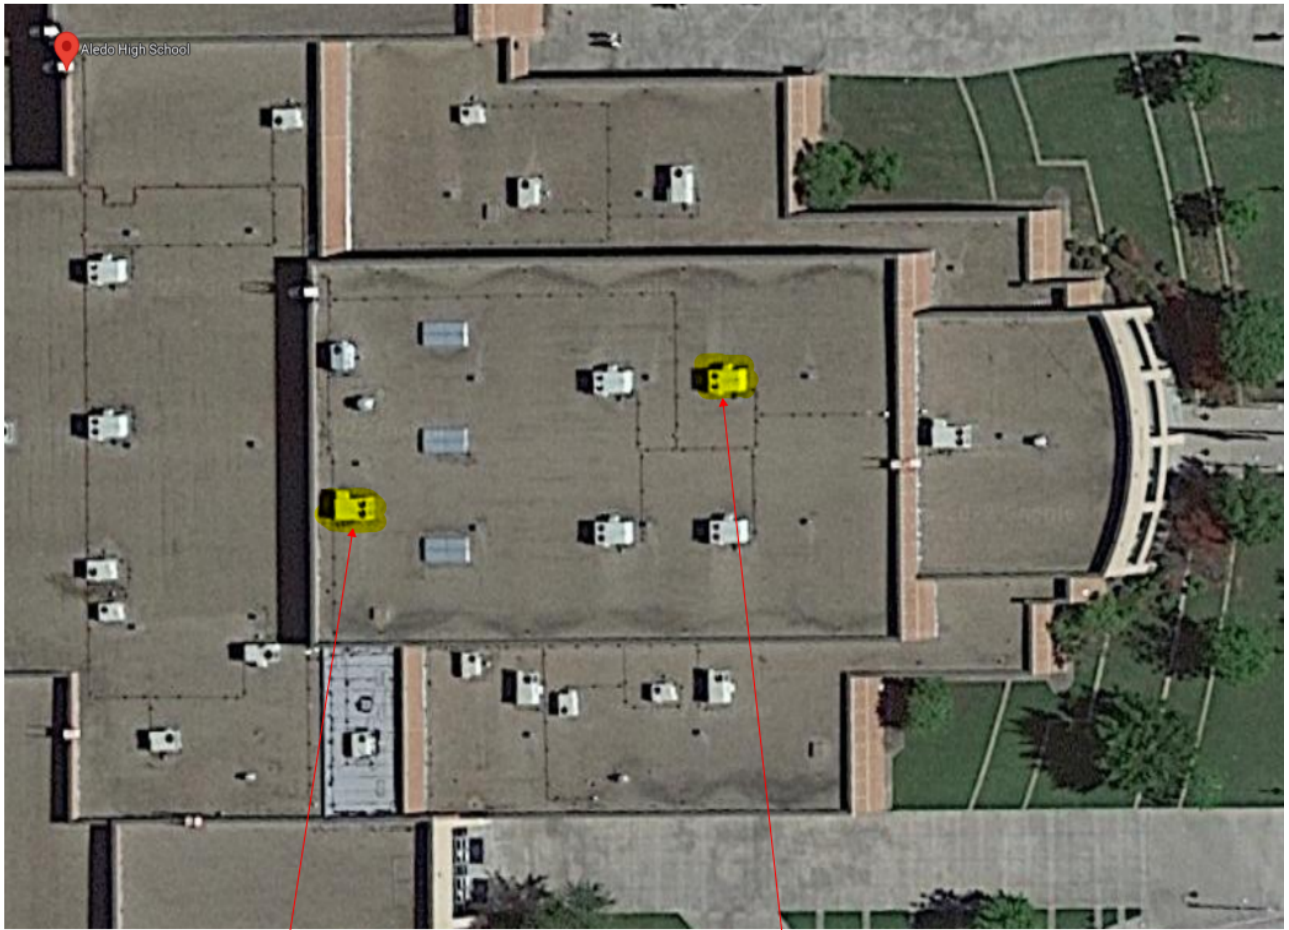

This equipment and services was procured through a purchasing cooperative.
BuyBoard price \$55,280.00

ATTACHMENTS:

Please see the attached pictures of the existing equipment.

ADMINISTRATIVE RECOMMENDATION:
