Our main discipline issue continues to be attendance and tardies. Parent phone calls have been made, warning letters have been mailed and we have been to court once thus far. We will use incentives this year to curb attendance issues (lunch detention, ISS, Blast, etc.). Coach Clayton is doing a wonderful job taking care of this as well as many more issues.

I have to commend the OHS staff for working so hard toward our academic goals. On 10/8, teams worked on benchmark and EOC data to determine potential new directions. A key area lacking in instruction is application. Since we have a high percentage of economically disadvantaged students, as a campus we are also exploring a book study concerning poverty in order to collaborate on how we can better serve these students.
