1. Calendar Handbook
  - a. The calendar handbook will no longer be printed and mailed out. As you know dates are always changing and so it seemed like as soon as we had it printed, it was already out of date.
  - b. There will be a digital calendar on the school website with all of the events, activities, and dates that families and the community will want to know. This calendar will always be up to date!
  
2. Custodians
  - a. THANK YOU to the custodians for all of their flexibility and hard work this summer!! Even though the building doesn't look spotless, they have had to work extra hard this summer with all of the construction and extra dust. They have also been very patient with new staff members and supported them in getting their classrooms ready. I am so appreciative of their hard work and dedication to the CI Secondary School!
