DESCRIPTION:

Class sizes have remained pretty stable since the October 2009 report.

	October	January
Elementary	24.32	24.50
Middle School	29.32	29.00
High School	30.90	29.96

Overall enrollment has remained steady at the elementary and middle school levels with an increase of ten students in grades K-5 and no change at the middle school. At the high school level, there has been a decrease of 48 students since the beginning of the school year, of which 13 are additional shared time/PSEO students.

Also attached is the class size cohort data. We now have six years of data tracking class sizes and you can see the class size experience of a student who started kindergarten in 2004-05.
