
Early Childhood Program

April 7, 2015

Pre-K Students

School	AM	PM	Full day
Little Raiders University	8	13	3

Academics

As part of our curriculum we studied, the ocean and made oceans in a bottle using sand, water and blue food coloring, we used our water table as an ocean and had shells and various plastic sea life in it. The students are bringing in something from the ocean as part of show and tell. One student actually brought in a live lobster as her show and tell. We are ending the month talking about weather, we made snow, talked about wind, rain, and hot sunny days. For our literacy activities we read *Snowy Day*, *Catty Jane Who hated rain*, and created weather words in our library. We look forward to studying Spring.

Human Capital

Professional Development:

We have completed our partnership with I am Moving, I am Learning (IMIL). This partnership was aimed to prevent and reduce childhood obesity by improving the nutrition and physical activity policies in our program. We have strengthened our policies to create healthy nutrition and physical activity daily. We work closely with our food service to provide healthy snacks , and we have a minimal of 30 minutes of music and movement daily. We will be receiving a \$1000.00 stipend for participating.

We are in the self study process with our NAEYC accreditation

Operations

We have been in our new location now for 2 months. The staff and students love our new location and materials. The smart board gets utilized daily with music and movement.

Culture & Climate

We have new signage in our entrance way. It is very eye catching and inviting.

Now that the snow is melting and the ground is thawing we should have our new outside signage installed.

Executive Sign Management, LLC made the signage.

Thank you for your time
