

**Addendum to Meet and Confer Agreement
for the 2014-2015 Fiscal Year for
Certificated, Support and Professional Non-Teaching Groups
Subject to Governing Board Approval**

We, the members of the combined Meet and Confer Team for the 2015-2016 fiscal year, have met and conferred and recommend the following addition to the compensation package for the 2014-2015 fiscal year for certificated, support and professional/non-teaching employees of the Amphitheater Unified School District (“the District”). We have reached consensus on the following:

1. The compensation package for the current fiscal year, approved by the Governing Board on March 11, 2014, included a provision that if new funding was received that could be used for compensation, the Meet and Confer teams would reconvene to develop a recommendation to the Governing Board for appropriation of those funds;
2. The Arizona Department of Education has notified the District that the District will receive Student Success Funding in recognition of school performance throughout the District during last school year. Such funds will total approximately \$241,000 and have been remitted to the District this school year.
3. The Student Success Funds should be distributed to all current certificated, support and professional non-teacher employees on an equal basis, adjusted by full-time equivalency (FTE) levels, equating to approximately \$141.00 in gross wages per full-time employee, with payment to be made prior to the Winter Holiday Break.

DATED this 30th day of October, 2014.
