

Explanation of Proposed Policy Change

GKD local	This policy is a First Amendment related policy. It deals with non-school use of facilities by the community. Major changes involve more clearly aligning the policy with current law and court cases and reorganization and clarification of categories of users. Existing policy is included for comparison.
FNAB local	This policy change creates a significantly different policy due to recent First Amendment concerns. The policy, as written, details more specifically our responsibilities and the rights of students to access facilities for non-school purposes. Existing policy is included for comparison.
DIA local	Change last paragraph to “Employees will be advised of this policy annually. The policy is available to all employees online and a hard copy may be requested from the campus principal or human resources.” to bring policy in line with District practice. Strikeouts represent deleted text; boldface text represents new information.
