November 10, 2025

Dear Dr. Tyler Reed, School Board Members, and Community Members,

We are thrilled to recognize David Hummel as our Volunteer of the Month! You may remember, last year, David was recognized by the high school for his incredible contributions to the robotics program—and with good reason. Because of the extensiveness of his work and the impact he continues to have on our middle school students, we feel it is equally important to honor him here as well.

David generously shares his extensive skills in programming and robotics, transforming complex technical challenges into exciting learning opportunities for our students. He has a remarkable talent for mentoring—guiding team members as they research innovative solutions, encouraging creative thinking, and inspiring them to elevate the ambition of their designs.

Through his hands-on guidance and passion for technology, David has helped build not only a competitive robot, but also the confidence and technical abilities of each student on the team. What makes his dedication even more extraordinary is that he does all of this while maintaining a full-time job that takes him out of state one week every month.

David's commitment, expertise, and enthusiasm exemplify the spirit of volunteerism that helps our students thrive. We are deeply grateful for all he gives to our school community and proud to recognize him as this month's Volunteer of the Month.

Sincerely,

Lori Dilbeck, Principal
