### **Project Notes/Major Activities:**

The steel building frame is 100% erected. The second-floor metal deck has been installed, and concrete has been poured. The roof metal deck is ongoing, and lightweight concrete is being scheduled. Structural steel fireproofing is ongoing. Mechanical, electrical, and plumbing trades are all hanging their systems in the plenum throughout. Paving prep has been started for the back parking lot to mechanical yard and drive, should pour as early as this week, or next. Air handlers are being placed throughout the facility.

### Key Issues:

Architect: CRE8

### **Proposition A Project Summary Jessup Elementary School Building Replacement**

General Contractor: Drymalla Construction Company, LLC Location: 9301 Almeda Genoa Rd., Houston, Texas 77075

FF&E	\$0 \$0	\$1,225,000	\$1,225,000	\$879,336	\$273,330 \$0	\$345,664

### Project Notes/Major Activities:

There is plenty of ongoing work such as paving, utilities, CMU, fireproofing on bar joists and roof deck, fire sprinkler, CVB's and Brick laying. Installing exterior aluminum storefront and walls are being two sided with gypsum board in areas. Centerpoint is lined up to get energized this month. Pulling electrical feeder cables to the transformer. Avadek canopy at the north wall completed. Finishes are starting they are applying paint in classrooms and ceramic wall tile at the drinking fountain and restrooms. Working through Technology and furniture purchases.

### **Project Notes/Major Activities:**

The building is completely dried-in, and the contractor may have Air Conditioning running as early as Next Monday, October 13. Interior work is ongoing with electrical, mechanical, plumbing trades. Walls are being covered up, tile is being installed on walls, preparing for installation of ceiling grid. Centerpoint has energized the buildings switchgear. The contractor has been flushing the HVAC lines for over a week prior to HVAC start-up. Building finishes – paint, ceramic tile, and the Kiva are all in progress.

### Key Issues:

Architect: Arcadis Texas (formerly Texas-IBI Group)

General Contractor: Drymalla Construction Company, LLC Location: 2262 Allen Genoa Rd., Houston, TX 77017

### **Proposition A Project Summary** Williams Elementary School Building Replacement

### Project Notes/Major Activities:

The earthwork and underground utilities are ongoing. Forming and prepping the paving is also ongoing. There is a considerable amount of paving in. The building pad is complete. We are waiting for the new drilled pier design to be approved by the city so we can continue with the building foundation.

### Key Issues:

Getting the redesign of the pier and bell configuration approved thru the city and priced by the contractor.

Professional Services Project Contingency						

### Project Notes/Major Activities:

Replacing all Hydronic piping at both these campuses because existing, underground piping has corroded. Burnett's system is completed and was up and running prior to school starting. Frazier was delayed due to it also receiving a new roof. The roofer from Roof Package 3 coordinated roof penetrations, fixed pipe supports required for the new hydronic piping on the roof. The contractor has all the pipe racked on the roof and is fusing the pipe segments together. This campus will be completed over Christmas break – they will demo the central plant, make all the tie-ins for the new hydronic piping, flush the system and get it up and running prior to kids coming back for the spring semester.
