

~~6110 — NEW ELECTIVE COURSES IN SECONDARY SCHOOLS~~

~~In the interest of providing a systematic process for proposing and implementing new elective courses in the secondary schools, the following process shall be followed:~~

- ~~1. The proposed course is discussed and reviewed with the Director of Curriculum, Instruction & Assessment by the principal.~~
- ~~2. Relationship of the proposed course to the current curriculum shall be identified.~~
- ~~3. Student learner outcomes for the course will accompany the proposal.~~
- ~~4. The appropriate curriculum committee or advisory committee will review and recommend the course to be offered or recommend the course not be offered.~~
- ~~5. Funds for the textbooks and/or materials are requested from the Director of Curriculum, Instruction & Assessment who enters the request in the budget process.~~
- ~~6. Appropriate materials or textbooks are selected through a defined selection process.~~
- ~~7. An assessment will subsequently be made as to the impact on current elective courses.~~
- ~~8. A procedure to evaluate the course will be identified as part of the course proposal.~~

~~Courses that are currently offered at one school can be duplicated at another school upon the approval of the Director of Curriculum, Instruction & Assessment.~~

~~The School Board shall approve all newly created elective courses before they are offered in the schools' course description books.~~

~~Adherence to the above process will aid the School District in providing equity among the schools in learning opportunities for students, enhance the importance of curriculum and/or advisory committees, and assure that there will be proper support for new courses.~~
