EMERGING ENTREPRENEURS

The annual WACC CEO Trade Show was held on April 29 and 30 at Northland Mall in Sterling. Our eight CEO students worked hard throughout the year, learning from local business leaders while cultivating their own small businesses. With ventures ranging from food preparation and jewelry creation to vintage clothing and candle making, students demonstrated strong networking skills as they engaged with patrons and gained valuable real-world experience.

GROWING OUR OWN

DHS celebrated Future Educator Signing Day on May 5 with eight seniors who plan to pursue careers in education. These students have interests ranging from special education and elementary education to music education. One senior plans to travel abroad to teach in Thailand immediately following graduation. We are excited to watch these students graduate in the coming weeks and begin their journeys in a rewarding career in education, and we hope many of them will one day find their way back to the Dixon community!
