- Other _____

Submitted By:

Kimberly Smith

Background Information:

In-use by Frisco ISD K12 teachers and students since 2020, Kami is an online platform that enhances instruction by turning traditional documents into interactive, collaborative learning tools. Teachers can engage students through real-time annotations, comments, drawings, and multimedia responses, supporting a wide range of learning styles and needs. Kami also promotes accessibility with features like text-to-speech, voice comments, and screen reader compatibility.. The platform supports meaningful, timely feedback by allowing educators to leave written, audio, or video comments directly on student work, encouraging active revision and deeper learning. The combination of instructional flexibility and personalized feedback makes Kami a valuable resource for student learning. Kami is a secure, FERPA- and COPPA-compliant environment that ensures user privacy.
