September 2016

Derby Public Schools

Monthly Board Report

Technology Department

Eric Conklin, Director of Technology

1:1 Laptops

Technology Department

- Laptops have been and continue to be handed out. At the time of the report, I do not have numbers, but will have available for meeting.
- Laptops have been issued to RAISE students for use during their school day
- Students have been returning devices that they did not return over the summer. We are almost at 100% for last years returns.
- Students have had a positive response to the upgrades to Windows 10. Many are already familiar with it and find it more effecient.
- Laptop distribution will continue through the month and repair issues are handled as they arise.

Start of the School Year

Technology Department

- New computers have been installed. Supporting teachers in their needs for the new devices as they arise. (software install, printing, etc)
- Re-configuring and installing additional computers (new and old) as needed and as time allows throughout the district.
- Computer labs in all schools ready for student use.
- Every classroom at Irving and Bradley has received an additional student computer. Every classroom now has 3 students computers.
- ENO Smartboards, projectors, and ENO Pens have been ordered for RAISE as necessary and will be installed upon delivery
- Staff IT requests and concerns are being responded to ASAP.

Ongoing Work

Technology Department

- NWEA student data uploaded and ready for testing
- Distributing and repair of student laptops and aircards
- Overall maintenance and monitoring of district network, equipment, and security
- Setup and support of student network and Google accounts as needed.
- Daily helpdesk support for teachers, admin assistants, administrators, and students.
