

The MIKI

Expanding Modular Recognition Tree

Each Tree consists of "modules" containing leaves mounted to a clear acrylic backer.

3D Cast Resin "Fat" Trunk with "bronze" impregnated particles

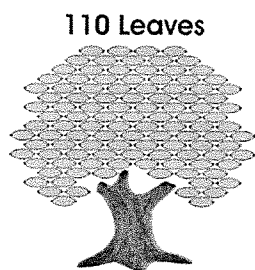

ADD MODULES FOR MORE LEAVES!

110 Leaves	185 Leaves	272 Leaves	331 Leaves	380 Leaves

"The female name "Miki" means "beautiful Tree" in Japanese. Not only is this tree beautiful, but it is a very affordable Donor Tree. Ideal for donor-recognition, ongoing fundraising campaigns or memorial trees, the Miki Tree has the flexibility to add more leaves in the future. Leaves are attached to clear acrylic modules, which can be added in the future..... Grow as go! Simply add future modules as needed to create a memorable and stunning recognition display. Expandable up to 380 leaves or more. The Miki is made from the highest quality materials. The three dimensional tree trunk is made from cast resin and simulates bronze. It is large, and measures approximately 16" x 18". Leaves measure 1-4" and are available in satin brass, satin silver or satin copper. These leaves attach to clear acrylic back panels. All modules have polished edges and tapped holes to accept brass leaf mounting screws. Installation is a snap with our "easystall" mounting templates. All mounting hardware is included in the USA! For indoor use only.
