RE: Pinnacle 2020 Update

From: Marilyn Denison

In November of 2013, the Coppel Independent School District started the process of developing a long range plan called **Pinnacle 2020**. The process included conducting information sessions, idea summits, and gathering additional information via a survey. These steps encouraged collaboration among all stakeholders: parents, students, community, and staff. A Pinnacle 2020 Committee was formed to consider all information gathered and to write a long range strategic plan for the district.

The plan created by the committee was divided into Phases I, II, III, and IV. The committee reconvened for a review of the overall Pinnacle 2020 Plan, as well as, a review of Action Plans from Phase I and Phase II. Recommendations for deletion and revision were made by the committee.

We would like to present the plan to the Board for review and considerations in order to obtain input from the Board for the 2015-2016 school year.
