

## Rental Rates for School Facilities

### Background:

It is a prudent business practice to annually review the rate the district charges for the public to use school facilities.

School board policy 905.1 Community Use of School District Facilities and Equipment establishes the guidelines for use of school property. It states

“It is the responsibility of the superintendent to develop a fee schedule for the board’s approval and to develop administrative regulations regarding this policy.”

The supplementary rules to policy 905.1 are in 905.1R2. It establishes the fee schedule below.

Track/Football field	\$100 (first 2 hours) and \$10 each additional hour
Baseball or Softball field	\$100 (first 2 hours) and \$10 each additional hour
Other Areas	Rate established by superintendent or designee

\*Limited Access

Specifically, trained employees may be required, as determined by the superintendent or designee, when specialized equipment or facilities are utilized by a non-school group. For events held outside of normal hours of operation, labor costs for school employee will be charged in addition to rental fees.

### Labor costs

Custodian	\$32/hour
Specifically, Trained Employee	\$32/hour

### Rates for Use of Equipment

Equipment used by non-school entities will be charged at a rate established by the superintendent or designee. Damaged and/or missing equipment will be charged to the entity.

### Recommended Action:

With the rising costs of our employees, I recommend keeping the changed fee of \$32 per hour that was agreed upon last year.
