District Child Care Center Construction Underway

Unity School District is excited to announce that it is establishing a child care center, available to infants through four years of age. Unity's Board of Education approved the program at its May Board meeting. The program is the culmination of two years of research, careful planning, and decision making.

The "Little Eagles Early Learning Center" will provide quality child care in a safe and rewarding environment where play and interaction are encouraged. Programming will be affiliated with the school district and will offer beneficial parenting activities as well as child care services. The child care program will be offered through the District's community education program. The program will operate on a weekly fee-based payment schedule.

Located at the southwest corner of the Unity campus, the center will have access to the current elementary school parking lot making an easy transition for parents. The center will include outdoor and indoor play areas. The building will be constructed during the summer, with the opening of the facility projected to be October, 2019.

Interested parents are encouraged to contact the school district at awarner@unity.k12.wi.us. A contact list is being compiled for when registration and rate information becomes available. Registration will be based on a first come, first served basis.

Unity is excited to offer this service to its community and cannot wait to meet its youngest learners!

PBIS Recognition of Schools

Congratulations are in order for Unity Elementary Schools and Unity Middle School. Each was recognized for their efforts in implementing an equitable, multi-level system of supports! Creating a system to meet the needs of ALL students is rewarding work that takes the determination of many.

The schools are being recognized by the Wisconsin RtI Center and the Wisconsin Department of Public Instruction (DPI) for implementation:

- Unity Elementary School: Silver Level Behavior
- Unity Middle School: Silver Level Behavior

Funded by the Wisconsin DPI, the Wisconsin RtI Center supports schools and districts by providing statewide training and technical assistance. Their mission is to help schools and districts create equitable, responsive systems for all students.

The work of Unity School District lays a solid foundation for the future expansion and refinement of its equitable, multi-level system of supports. The RtI Center said, "Once more, congratulations to you, your staff, and students! We look forward to supporting you in your continued success, and helping you ensure all your students graduate college and career ready."
