Standards Based System/Curriculum Progress

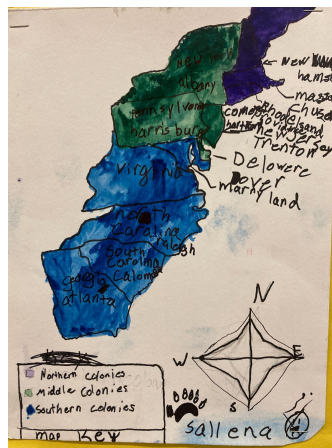

- Preschool students celebrated Valentine's Day, learned their letters, and completed some cultural activities!

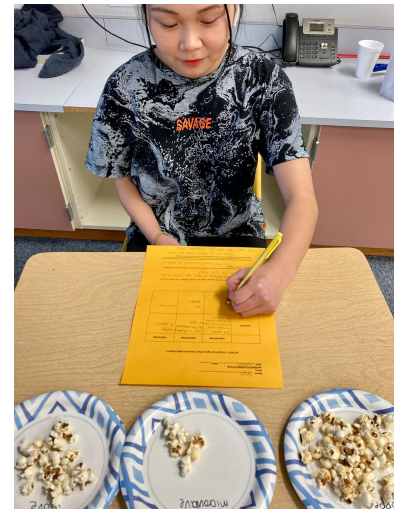

- Elementary students have been learning so much about the scientific method! They've had fun trying out some hands-on experiments. They also celebrated the 100th day of school this month!

- Middle school students have been working on finishing up their social studies standards—they've been learning about the thirteen original colonies and creation myths around the world!

- High School students are working on finishing their standards up as we get into the last stretch of school! We have been learning about the Civil War in social studies and gravitational attraction and radiation in physics!

Technology Progress

- Sam and Schyler outfitted us with some new technology items this month and Megan, our Technology Liaison, has been busy getting everything set up!

Student and Staff Safety

- We continue to remain open due to a lack of COVID transmission in the village!

Subsistence Calendar

- Community members discussed their support of the subsistence calendar at our most recent LSAC member! The calendar has allowed us to continuously have over 95% attendance and offer students more opportunities outside of the school day.
- This month, Devin presented his experiencing out slideshow for Cultural Awareness! We are very proud of him.
- We have several students working on upcoming experiencing out projects as well.

Other

- Five middle and high school students will be working on the carving class offered by BBRCTE and UAF Bristol Bay campus; we are so grateful for all of these opportunities that have been made available to our students.
- Thank you for taking the time to read through our updates every month! We appreciate the kind feedback we've received.
