Purpose of Report:

The purpose of this report is to provide campus and district ADA percentages for the 5th Reporting Period of the 2021-2022 school year (February 22, 2022 through April 8, 2022) and to compare this data to prior years. This report will also identify current truancy prevention measures being used on Denton ISD campuses to increase student attendance.

Objective:

The objective is to routinely analyze and monitor Denton ISD's attendance data with the goal of improving student attendance. By making this data readily accessible throughout the school year, the district will raise awareness of school attendance and monitor trends and changes across the district. The district will also provide transparent communication, training, and support; where needed, to improve student attendance in Denton ISD.

Operational Impact:

The analysis and monitoring of attendance data will increase the funding received from ADA, increase academic success and school completion, and support the district goal of ensuring that all students are reading on grade level by the end of grade 3.

Results:

NOTE: TEA has announced that all local school districts will automatically be granted an adjustment of operational minutes for the first four six-week attendance reporting periods. For the remainder of the school year, districts can request a waiver for low attendance days to excuse instructional days from ADA and FSP funding calculations as long as the low attendance day is at least 10 percentage points below last school year's overall ADA for the district due to inclement weather, health, or safety-related
