

**REQUEST FOR APPROVAL OF THE WAIVER FOR THE GRADUATION
REQUIREMENT FOR INSTRUCTION IN CARDIOPULMONARY
RESUSCITATION (CPR)**

Waiver for the Graduation Requirement for Instruction in Cardiopulmonary Resuscitation (CPR).

Texas Education Code §74.38 requires school districts and open-enrollment charter schools to provide instruction to students in grades 7 through 12 in cardiopulmonary resuscitation (CPR). In ECISD, the CPR instruction is delivered during the week of graduation for all seniors. Due to the large number of seniors that are remote learners, the school district is requesting a waiver of the requirement from the Commissioner.

Administrative Recommendation:

It is recommended that the Board of Trustees approve the waiver for the Graduation Requirement for Instruction in Cardiopulmonary Resuscitation (CPR).
