Hi Karen, Michael and Kathy,

Please see this email and attachments I am forwarding to you. It explains what we will be doing regarding Shaver as a case study.

This is a excerpt from the letter explaining why Shaver has been asked to participate in this case study:

"The Oregon Department of Education (ODE) has asked Education Northwest to conduct a case study to describe the local conditions and practices implemented in several Oregon schools that have performed significantly better on 2014–15 Smarter Balanced Assessments in both Math and ELA at multiple grade levels than similar schools. The study will collect data on the characteristics of “beating the odds” schools including the use of assessment data to analyze student learning gaps and make adjustments in instruction to address the identified student learning gaps (H.B. 2680, 2015)"

I am very pleased with the outcomes of the work we have done at Shaver and would like the opportunity to share this with the school board. It would be nice for all our administrators to also know the good work and successes that are happening at Shaver.

Laura
