Re: 2023-24 Tuition Rate

Board Policy JBCB states: as a general rule, the school district does not accept nonresident students. The superintendent may make exceptions to this rule in accordance with administrative procedures. One example of an exception may be for a student in their senior year who wants to finish school in Livonia Public Schools, but their residence has changed.

Board Policy JBCB also states: tuition fees for students accepted by the superintendent from outside the school district's boundaries shall be established annually by the Board of Education according to law. The operation costs and membership figures on file with the state for the preceding fiscal year shall be used to determine the tuition rate.

Our discussion on this topic is only to establish a tuition rate and does not change any of our policies regarding nonresident students.

Please include this item on the August 14, 2023, Finance Committee meeting agenda. As always, please let me know if you have any questions.
