BACKGROUND INFORMATION:

Type: Regular Business Action

For a school district or open-enrollment charter school to qualify for the State-Developed OER (Open Educational Resources) Entitlement for additional instructional materials procurement funding, the school district's Board of Trustees must adopt an OER instructional material transition plan.

A transition plan is required when initially adopting or expanding implementation of SBOE-approved instructional materials for any grade level or subject/course.

Approval and Submission:

-Transition plans are adopted by the local Board of Trustees before the start of the academic school year.

-They are locally maintained by the school district or open-enrollment charter school.

-The adopted plan will not need to be submitted; however, plans could be requested for review by the commissioner.

-School districts and open-enrollment charter schools will report completion of the transition plan through EMAT (Educational Materials System).
