

High School Board Report 4-14-20

Overview

- High School staff and administration have been working diligently to implement the Continuity of Learning plan. The high school had a strong foundation of tools to use in this environment as a result of past work to incorporate technology and new methods of instruction utilizing flipped classroom concepts and promoting student ownership of learning. The high school and District is continuously monitoring student, family and staff feedback to adjust plans in order to meet the needs of students. Initial feedback is positive as all parties develop daily routines in learning.
- Administration and staff are participating in a variety of networking and learning opportunities through webinars and live sessions with various types of participants to assist learning and social emotional needs of students and families during the health emergency. Events are sponsored by various organizations. Examples are: CESA, Professional Organizations, College Board, Wisconsin Department of Public Instruction, UW System, Technical College System, etc.
- Activities - Administrators and Activities Director have been working with various student clubs and athletics to cancel/postpone events scheduled for the month of April. Events beyond April will continue to be monitored and evaluated as more information, guidelines and requirements are determined based on the status of the health emergency.

March 2020 - THS Students of the Month

Cole Marheine	9
Morgan Hansmann	9
Blake Felser	10
Amelia Richert	10
Eric Strong	11
Allison Schmidt	11
Keaton Jed	12
McKenna Roessler	12
