Community Education Report

- The 30th Annual Harvey Public Schools, District 152 and 147th Back to School Parade and Fair was a great success. Even though the rain, we still continued to have an amazing turnout to this event with included, our State Rep. Will Davis, Alderman Donald Nesbitt and countless businesses, organization and friends of our District. We cannot forget the generous donation of burgers and Brats from our Thornton Township Supervisor Frank Zuccarelli. His team cooked in the pouring rain and did it all for the children. Even though it was tight, many of the children thought this Back to School Celebration was the best one ever.
- Ms. Bolton will be working with South Suburban College preparing to create an ESL/GED satellite program at several of our schools. The ESL program will be sponsored by SSC under their Community Education Program and will be housed at one of our District 152 schools, with the strongest Latino population, for convenience.
- Community Education has developed a relationship with Aunt Martha's Youth Service Center and DCFS to work together to help recruit foster families for the surrounding Harvey Area. Ms. Bolton has been working with Licensing Specialist to help kick off an event to allow parents in stable homes to care for children in Home –of Relative, Specialized and SASSY foster care programs.
