Hello everyone,

As I am getting settled in and ready to begin, I would like to request a few items that would make my job a little easier. I have attached screen shots from amazon of the items.

They are as follows:

Black Bookshelf 5-Tier -\$46.99

Chair Mat \$37.95

Desk Chair \$149.99

Ergonomic Keyboard \$79.99

Special request:

I'd like to propose investing in a Kindle Scribe, or ideally, a reMarkable tablet as a practical and cost-effective tool for improving our meeting workflows. These tablets are built for note taking, allowing for seamless, distraction-free minute keeping and idea capture. As someone who naturally leans toward handwritten notes, I've found that these tablets offer the perfect bridge between traditional writing and digital convenience. They preserve the tactile satisfaction of pen and paper while eliminating the clutter and inefficiency of physical notebooks.

This simple addition would not only streamline my own process but also help organize, share, and archive meeting notes more efficiently ultimately benefiting the whole team.

I look forward to working with you.
