

Providing quality education while preparing our children and community for the future

School Board Agenda Item

Meeting Date: March 13, 2017

Topic: Facilities Update

Place on Agenda: Superintendent Report

Presenter: Rich Dahman

Basketball hoops:

- * One of the front parking lot hoops was damaged by a delivery truck.
- * We are going to remove both hoops, and are looking into other locations.

HVAC Project:

- * New HVAC units have increased weight to meet air quality codes.
- * We've completed a structural analysis on the increased weight, with work done by Wendel Architects, Hallberg Engineering, and Vulcraft (joist manufacturer).
- * Options include reinforcing joists, removing sound boxes, and/or removing roof ballast for many of the units, and no needed structural work for some units.
- * The structural work has increased the estimated cost for project, so we will take bids with a base bid and alternates.
- * We will advertise and take bids through late March.
- * We plan to have a contract in place by early April, with work done during June/July.
