

Students

Residence

Resident Students

Only students who are residents of the District may attend a District school without a tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student. Residency will be verified when a student is new to the district and when that student moves from grade 4 to grade 5.

A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. In addition, the child's natural or adoptive parent, if available, shall complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian makes a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within six months after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Temporary Enrollment

If a family intends to move into the District but has not established actual residency, the student(s) may be allowed to attend school without payment of non-resident tuition for a period not to exceed 30 calendar days. The family must provide appropriate evidence of impending residency to the satisfaction of the Superintendent, who has the sole discretion to grant the temporary enrollment request. If residency (as defined by the state School Code) has not been established 30 calendar days after the Superintendent officially authorizes the temporary enrollment request, non-residency tuition will be charged from the 31st day until actual residency is established. Failure to establish residency within 60 days of the student's initial enrollment may result in initiation of disenrollment.

Residence of Student with Disabilities

The residence of a child with a disability is determined in accordance with 105 ILCS 5/14-1.11, 5/14-1.11a, and 5/14-1.11b.

Requests for Non-Resident Student Admission

Non-resident students may attend District schools upon the approval of a request submitted by the student's parent(s)/guardian(s) for non-resident admission. The Superintendent may approve the request subject to the following:

1. The student will attend on a year-to-year basis. Approval for any one year is not authorization to attend a following year.
2. The student will be accepted only if there is sufficient room.
3. The student's parent(s)/guardian(s) will be charged the maximum amount of tuition as allowed by State law.
4. The student's parent(s)/guardian(s) will be responsible for transporting the student to and from school.

Admission of Non-Resident Students Pursuant to an Agreement or Order

Non-resident students may attend District schools tuition-free pursuant to:

1. A written agreement with an adjacent school district to provide for tuition-free attendance by a student of that district, provided both the Superintendent or designee and the adjacent district determine that the student's health and safety will be served by such attendance.
2. A written agreement with cultural exchange organizations and institutions supported by charity to provide for tuition-free attendance by foreign exchange students and non-resident pupils of charitable institutions.
3. According to an intergovernmental agreement.
4. Whenever any State or federal law or a court order mandates the acceptance of a non-resident student.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. School Board policy 6:140, *Education of Homeless Children*, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student's Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a non-resident of the District for whom tuition is required to be charged, he or she on behalf of the Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by The School Code, 105 ILCS 5/10-20.12b.
