

Dear School Board Members,

Tonight, we recognize and celebrate Dani Dunphy, a person who has not only been a pillar of support but a beacon of advocacy and change. For over 15 years, Dani chaired the Parent Advisory Council for Special Education (PACSE), where her leadership has been invaluable to our Special Education Department.

Dani's ability to navigate the complexities of special education, coupled with her genuine passion for ensuring that every child receives the support they need, has empowered countless families and educators alike.

In addition to her role with PACSE, Dani has devoted over a decade to the Education Equity Advisory Committee (EEAC), serving as both a member and a vice chair.

She also continues to serve on the American Indian Parent Advisory Committee for more than ten years.

And, she has been a member of the Inter-agency Council of Duluth for over 15 years.

Dani's work is a testament to the profound impact that one dedicated individual can have on a community.

Her relentless pursuit of improvement in educational systems, her advocacy for children and families, and her commitment to service has not only enhanced the educational experience for students but has also laid a strong foundation for future generations.

Dani Dunphy has shown us what is possible, when we come together with a common purpose and a heart full of passion.

Dani, on behalf of all of us here, we thank you for your service and leadership.

Sincerely,  
Anthony Bonds  
Assistant Superintendent
