Re: Recommended Technology Related Policies

Working with our Board Policy consultant from NEOLA, there have been three recent technology related policies that have been recommended to us. Each of these policies was reviewed by the BOE policy committee, as well as by our district attorney.

ByLaw 0160 / 0167.6 – Use of Personal Communication Devices
PO 7530.01 – Staff Use of Wireless Communication Devices
PO 5540.02 – Social Networking Website Access

It is my recommendation and the recommendation of the policy committee that these policies be added to the March 10th BOE Agenda for their 1st Reading.
